WakaWaka is a product by Off-Grid Solutions

WakaWaka ('Shine Bright' in Swahili) is an impact driven, social brand that fights to abolish energy poverty throughout the world. We develop, manufacture and market high-tech low-cost solar powered lamps and chargers.

# WAKA WAKA'S MISSION!

## THE PROBLEM

1.5 billion people around the world  
**- A QUARTER OF HUMANITY -**  
have no access to electricity.

Kerosene lamps are widely used for lighting, but are extremely dangerous, inefficient and expensive.

Kerosene lamps have massive health and environmental drawbacks.

## THE SOLUTION

Sturdy, highly efficient, sustainable, solar-powered LED lamps can make an end to the deadly kerosene-dependence of millions of families.

Improves school grades.

Saves money and increases income-generating capacity.

Burn risk, unhealthy side effects and carbon-emissions are eliminated.

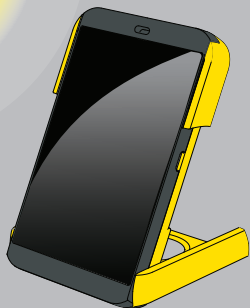

WakaWaka products in the West at competitive prices, are used to make them more affordable to off-grid families around the world.

Using the latest in patented solar technology, the WakaWaka Power and the WakaWaka Light are indispensable products both in the developing world *and* in the West. We have committed ourselves to harnessing the power of business for social good. Proceeds made from selling

## Solar charging

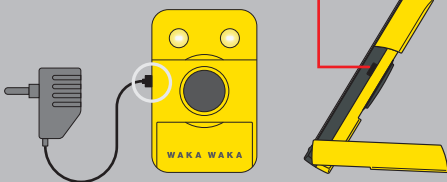

Face panel towards the sun

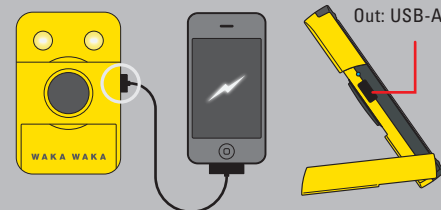

An empty WakaWaka needs about 10 hours of sunlight to get fully recharged.  
A typical sunny summer day at New York latitude will charge your empty WakaWaka to 75%.

## USB charging

In: micro-USB

An empty WakaWaka needs about 4 hours to fully recharge using a micro-USB adapter.

Connect a device to the USB port.  
WakaWaka will automatically detect it and switch on the power.

## Light

Push the button to switch on the light.  
Push several times to adjust the brightness.

### Superbright

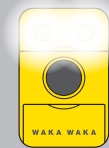

~10 hrs on full charge
