VHT-REPORT: MECHANICAL CHARACTERISTICS OF LIGNOLOC® WOODEN NAILS

The VHT (German Test Institute for Timber and Drywall Construction), an officially recognized testing, inspection and certification body, has tested LIGNOLOC® wooden nails for the following properties: pull-out parameters, pull-through parameters, yield moment, tensile strength, shear strength.

LIGNOLOC® test report ENV_12038

BECK commissioned the EPH (Entwicklungs- und Prüflabor Holztechnologie GmbH) with testing the resistance of the nail raw material against wood-destroying basidiomycetes (fungus) in the laboratory.
