

Sport & Outdoor

AlmaWin cleaning products are convincing through best quality regarding protection of the environment, dermatology and efficiency. Our ecological ingredients are very skin mild and gentle to the skin and they are successfully dermatologically tested. Our ingredients are based on raw materials of vegetal and mineral origin – if available certified organic. AlmaWin renounces on synthetical colorants, perfums and preservatives, on petrochemical surfactants and on nanotechnology. Genetic engineering is of course a no-no, too.

Ingredients:

≥5% <15% nonionic surfactants (saccharoidal surfactants), anionic surfactants (fatty alcohol sulphates), ,
<5% perfums (lavender oil), linalool. Further ingredients: water, ethanol, sodium salts of succinic and poly aspartic acid, citric acid, zincricinoleate, lactic acid. 96% of the total ingredients are from natural origin.
