THUNDERBIRD

POWERplus® Thunderbird

Amazing Educational
Salt Water Powered
Monster Car

After the introduction of the POWERplus Marlin – the worlds first salt water powered toy car - in 2011, POWERplus now introduces the Thunderbird.

The Thunderbird is salt water powered Monster Car with full 4 wheel drive function and lots of moving parts.

This product with an ingenious design educates children how to use alternative energy sources. Children can see how the engine is working thanks to the moving parts.

This DIY kit comes with a step to step instruction manual. So the fun of playing begins with the building of this amazing car.

No batteries needed! Just add some drops of salt water to the fuel cell to power the car. Amazing but true!

Salt water powered fuel cell
