FOLDABLE COMPACT ETFE

# SOLAR CHARGER

USB 5V / DC 14.8V OUTPUT

# GORILLA

# POWERplus® Gorilla

## ETFE Solar Charger USB 5V / DC 14.8V

The POWERplus Gorilla is a high quality solar charger with built-in voltage regulator which generates an output of 5V (USB) and 14.8V DC.

The ETFE layer protects the solar cells from scratching, dust and water and guarantees a durable product suitable for tough conditions. The foldable design is easy to carry and light weight. The Gorilla has 3 solar cells which are rated 6.7W each which gives a total solar cell capacity of 20W, tested under STC (standard testing conditions). This product has an average maximum output of 14W in sunny conditions.

Durable ETFE solar cell

Foldable 3-panel compact design

Integrated stand for more efficiency

5V/3A max. USB / DC 14.8V output

Holes on sides for easy mounting

### Technical details:

Power		20W (+/- 10%)
Average power output	14W	
USB output		5V (2.8A)
DC output		14.8V (1A)
Size folded		20 x 28 x 3 cm
Size unfolded		59 x 28 x 2.5 cm
Weight		714 gr.
