**TRIPLE SOLAR WING
LED FLASHLIGHT/POWERBANK**

CE ROHS[✓]

EEAGLE

The POWERplus® Eagle Triple Solar Wing LED FLASHLIGHT/POWERBANK

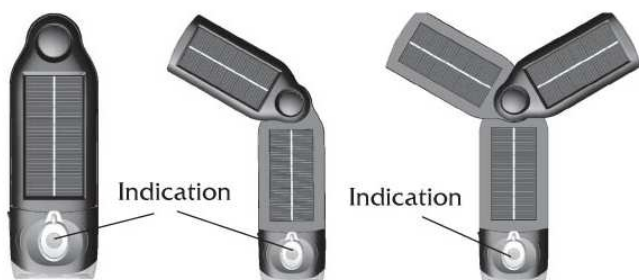

Enjoy the freedom of mobile light and energy everywhere you go.

The triple wing solar panels are designed to charge mobile devices quickly and reliable. The solar energy charges the internal battery of the Eagle, so after charging no sun- or daylight is required to charge your mobile devices.

The powerfull LED's of the Eagle provides a strong light. You can select 1 LED, 3 LED or 3 LED flashing.

The Eagle comes with a Nokia cable and 7 adapter plugs to cover almost every mobile phone and other small mobile devices.

The POWERplus® Eagle is the first combined solar flashlight/powerbank on the market with the unique rotatable solar wings for maximum charging power.

Charging status is shown by indication light on the on/off button of the Eagle.

The Eagle comes with:

- Main unit
- Cable suitable for Nokia
- 7 Adapter tips for: small pin Nokia, Sony Ericsson (2x, new and old model), Samsung, Siemens, Motorola and mini USB
